HIDROINPEX SA

IDNO 10036070014

The HidroinpeX SA plant was established in 1974 as a pilot plant for mechanization and automation equipment of the Ministry of Engineering for livestock and feed production.

It is located in the city of Soroca, in the north of Moldova, on the banks of the Dniester River and specialises in the production of hydraulic motors. The company also produces spare parts for agricultural machinery and a wide range of plastic and metal consumer goods.

SA "HidroinpeX" is constantly carrying out experimental work on the manufacture of various hydraulic machines and has the ability to produce hydraulic motors in accordance with customer requirements.
